Remarkable Statement about Cholera.

An eminent physician of Paris Dr Ronet has written to a professional brother in Liverpool in relation to his mode of treatment of Cholera in its worst stages The following is a translation of the letter—

PARIS June 23th 1849

I deem it my duty to inform my professional brethren that in a great number of patients affected with the cholera in its last stage that is to say when the pulse is absent, and in the commencement of the blue stage, I have succeeded in restoration of the heart and recovering the pulse from the blue stage, by administering at intervals of half an hour four cups of hot and sweetened infusing of the common lime tree, mint Balm or camomile &c in each of which a cup of the infusion were four drops of volatile alcali, making six teen drops which the patient may take in four hours almost instantaneous The pulse commences anemally to beat, rather irregularly at first true but afterwards by force, the blue stain disappears, the body face, and extremities are covered with hot and copious sweat and in a few hours the patient is entirely out of danger It is frequently necessary to combat the exciting when it becomes too strong by the assistance of bleeding

Visit of the Pope to the U. S. Frigate Constitution.

A correspondent of the New York Herald describes a visit that the Pope made, all Gaeta, to the U S frigate Constitution

Soon after the party of officers reached the Constitution, the batteries on shore and on board the ships in the bay announced that His Holiness the Pope and his Majesty the King of Naples were afloat and in a few minutes these distinguished monarchs reached the deck of the Constitution and were received with salutes of twenty one guns each The yards were manned, the marines presented arms, the band played an appropriate air The Navy stood minutely every part of the ship [illegible] by a numerous and very brilliant [illegible] and appeared himself in terms of high satisfaction

His Holiness was much pleased with the order and propriety that everywhere met his eye His Holiness questioned to be presented to the Pope and the Captain ordered them to be formed into two lines Halted [illegible] then passed along the entire extent giving to his blessing and made a present of [illegible] elevation The ceremony was grand and imposing

DR. PEARSON'S CARMINATIVE BALSAM.

Great Cholera Preventive.

THIS article should be in the possession of every person travelling in the Cholera districts. It has been known to fail of producing the happiest results in cases of Cholera Morbus in this climate, and has been, in the present season of the Cholera in this country, been pronounced, since most Cures,—though it is recommended more particularly as a PREVENTIVE. But is useful in any stage of the complaint.

It taken in time it stops the approaching symptoms of Cholera—which is a premonitory symptom of Cholera—in attack of this dreadful and fatal disease may be prevented. In Cholera Morbus and Summer Complaints of children it has no equal. Dr P has made use of it in his own family in his practice for near 10 years, and has not found a remedy equal to it. It is also a valuable adjunct in Dysentery.

It is used by the most successful remedy for the cure of Dysentery, Cholera Morbus and Summer Complaints that is known. Parents would do well to keep it in the house and have it used for young children at the first symptom, as all must be aware that a few hours neglect will produce a fatal disease.

Read the following certificate of Mrs A M Sanford of New York (one of the Carrier Sisters) whose name has become a household word in the land.

I can sincerely say that I have used Dr Pearson's Carminative Balsam and confidently believe it to be the best medicine that can be used in the various cases for which it is recommended to all and wherever I have administered it in the summer months in the form of cholera infantum and cramp and other of the fluxing and crying of infants for which it is a certain cure.

Brooklyn, August 1, 1849

Dr Townsend—Dear Sir—I have taken your Sarsaparilla for a severe cough, which I had for more than a year, and which prevented me from sleeping more than two or three hours in a night. I was induced to try your Sarsaparilla by seeing a notice of its effects in the papers, and have taken but two bottles, when my cough left me entirely, and my health is now better than it has been for years. I am now 45 years of age, and have been troubled with a cough more or less for the last 20 years. I feel very grateful to you for the cure your medicine has effected in my case, and recommend all persons afflicted with coughs, colds, or any disease of the throat or lungs, to give your Sarsaparilla a trial, as I feel confident it will cure them.

Yours, respectfully, JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never made any claim to its efficacy in such cases, so the following letter is no less than astonishing.

Fordham, August 13, 1847

Dr. Townsend—Dear Sir I have a child, aged seven years, who was afflicted with Fits, and although we could find no one to recommend to us, we determined to try your Sarsaparilla, and although we had little faith in any medicine for the cure of Fits, we were induced to do so, as we had seen your Sarsaparilla highly recommended for other complaints. Our child had been afflicted with Fits for about two years, and we had tried the skill of two physicians, but without success. She was subject to Fits almost every day, and sometimes would have two or three in a day. We had given her but little medicine before we commenced giving her your Sarsaparilla, and we were very glad we did, for after she had taken one bottle, we noticed a change for the better in her health and strength, and before she had taken the second bottle, she was entirely free from Fits, and has remained so ever since. She is now a fine healthy child, and we are very grateful for the cure your Sarsaparilla has effected in her case.

Yours, respectfully, JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is the great remedy for all diseases peculiar to females. It will positively cure Suppression of Customs, Irregularities, Painful and Difficult Menstruation, Inflammation of the Womb, Ulceration of the Womb, Floodings, Whites, Abstruction or Falling of the Womb, Consumptive Habits, and Decline, Incontinence of Urine or involuntary discharges, Pain in the Back, Groins, Loins, Kidneys, &c. It will restore the female to perfect health, and will in a short time cure all diseases arising from a disordered state of the system, no matter of what nature or of how long standing they may be. Those who are troubled with any of the above complaints, should not delay a moment in using the Sarsaparilla, for by so doing they will save themselves much misery, and prevent the above complaints from becoming deep rooted and incurable. Many females are now languishing on beds of sickness, who might be restored to health and happiness by the use of a few bottles of this Sarsaparilla. Do not be persuaded to take any other preparation of Sarsaparilla, because you may be told it is as good as Townsend's, or that it will answer the same purpose, but insist upon having Townsend's Sarsaparilla, and you will not be disappointed in the result. Many other preparations of Sarsaparilla are offered to the public, under the most taking titles, and purporting to be as good as Townsend's, but they are generally worthless compounds, got up to make money, and they are destitute of the medicinal virtues which render Townsend's Sarsaparilla so valuable to the afflicted. Be sure and call for Townsend's Sarsaparilla, and take no other.

RHEUMATISM

This is one of the complaints that our thousand cases in the Union can testify to Dr Townsend's Sarsaparilla has been the means, through Providence, of relieving many who have for several years had to endure the most excruciating sufferings from Rheumatism, considered by all who knew them as confirmed cases of Rheumatism, which baffled the skill of the most eminent physicians, and which nothing but the use of this Sarsaparilla could have relieved. Many of the above cases are well known in this city, and can be referred to by any person wishing to make inquiry.
